Preface

Starter TOEIC, Third Edition is intended for beginning-level students of English who need to start preparation for the TOEIC. The book is designed to assist students through focused practice while developing familiarity with the format of the TOEIC.

Chapter 1 Grammar Practice

Units within the Grammar Practice chapter outline fundamental grammar points frequently tested on the TOEIC. Each unit begins with a brief explanation of the grammar target, including key points and particular structures of interest in the TOEIC. The units also provide short exercises based on the format of TOEIC grammar questions which allow students to practice their understanding of the grammar point. These exercises include incomplete sentence exercises and word form exercises.

Chapter 2 Listening & Reading Practice

Units within the Listening & Reading Practice chapter are designed as mini practice tests to familiarize students with the kinds of tasks they will encounter on the TOEIC. Additionally, all of the sections of each individual mini practice test are based on unified themes to support student acquisition of common vocabulary and phrases within a controlled framework. Students will also find that the grammar points outlined in Chapter 1 are recycled in corresponding units of Chapter 2 to reinforce recognition of correct usage of the grammar in natural contexts. For example, in Unit 1 of Chapter 2, students will hear through the listening tasks and read through the reading tasks a wide variety of auxiliary verbs (practiced in Unit 1 of Chapter 1) used in correct, natural contexts all related to the theme of health.

Chapter 3 Practice Test

The Practice Test chapter provides students with a full-length practice test, including 100 listening test questions and 100 reading test questions.

Chapter 4 Support

The Support chapter includes reference materials related to the above chapters, including tape scripts for all listening tasks in each unit of Chapter 1 and in the practice test of Chapter 3, answer keys for each mini practice test in Chapter 2 and for the full-length test in Chapter 3, and a blank sample answer sheet for use when taking the full-length practice test.

The simplified grammar and thematically based texts of ***Starter TOEIC, Third Edition*** provide beginning-level students with access to TOEIC practice materials appropriate for building their test-taking skills without the frustration of encountering overly complicated vocabulary and grammar structures. ***Starter TOEIC, Third Edition*** provides an excellent foundation for students starting preparation for the TOEIC test.

Introduction

About TOEIC

TOEIC stands for Test of English for International Communication. It is divided into two main sections: Listening and Reading. The Listening section tests the ability to understand spoken English. The Reading section tests the knowledge of grammar and vocabulary usage and the ability to read and understand short passages.

There are a total of 200 questions on the TOEIC test, and the test lasts about 2 hours. All of the items are multiple-choice questions with three or four possible answers. The following chart outlines the organization of the test as of May 2006:

Organization of the TOEIC

Section I: Listening Test

Part I: Picture Description	10 questions
Part II: Questions and Responses	30 questions
Part III: Short Conversations	30 questions
Part IV: Short Talks	30 questions

Section II: Reading Test

Part V: Incomplete Sentences	40 questions
Part VI: Incomplete Texts	12 questions
Part VII: Reading Comprehension	48 questions

Grand Total 200 questions 2 hours

LISTENING TEST

In this section of the test, you will have the chance to show how well you understand spoken English. There are four parts to this section, with special directions for each part.

Part I Picture Description

The directions for Part I of the TOEIC appear on the test as follows:

Directions: For each question in this part, you will hear four statements about a picture in your textbook. When you hear the statements, you must select the one statement that best describes what you see in the picture. Then find the number of the question on your answer sheet and mark your answer. The statements will not be printed in your test book and will be spoken only one time.

Look at the sample below.

Now listen to the four statements.

- (A) The woman is using a musical instrument.
- (B) The woman is typing on a computer.
- (C) The woman is playing a video game.
- (D) The woman is sitting behind the table.

Sample Answer

(A) ● (C) (D)

Statement (B), "The woman is typing on a computer," best describes what you see in the picture. Therefore, you should choose answer (B).

TIPS

- Preview the picture before the statements are read. Ask yourself, "Who?" "What?" "Where?"
- Focus on the meaning of the statements as a whole.
- Answer the question as quickly as possible. If you don't know the answer, guess and begin previewing the next picture.

TRICKS

- Incorrect answers may contain similar sounding words.
e.g. The woman is tying at the table.
- Incorrect answers may give wrong pronouns, numbers, and locations.
e.g. He is typing at the table. / There are two typewriters. / The woman is sitting under the table.
- Incorrect answers may include a correct word.
e.g. The typewriter is for sale. / The woman is sitting with some friends.

Part II Questions and Responses

The directions for Part II of the TOEIC appear on the test as follows:

Directions: You will hear a question or statement and three responses spoken in English. They will be spoken only one time and will not be printed in your test book. Select the best response to the question or statement and mark the letter (A), (B), or (C) on your answer sheet.

Now listen to the four statements.

You will hear:

Good morning, John.

How are you?

You will also hear:

(A) I'm fine, thank you.

(B) I'm in the living room.

(C) My name is John.

Sample Answer

(A) (B) (C)

The best response to the question "How are you?" is choice (A), "I'm fine, thank you." Therefore, you should choose answer (A).

TIPS

- The first word of the question will help you to know what kind of answer is required.
What, where, who, why, how—ask for information.
Do, does, did, are, is, will, can—usually need a "yes" or "no" answer.
- Questions that contain "or" and require a choice never have yes/no answers.
"Did you stay home or go out last night?" "I went to a movie."
- Sometimes you will hear a statement, not a question. However, it still requires an answer.
"Thanks for dinner." "You're welcome."

TRICKS

- Pay attention to words that sound the same (homonyms).
e.g. *two, too, to*
- Look out for tag questions that are added to the end of statements.
That movie was great, wasn't it?
- Watch out for indirect answers. Sometimes the answer to a yes/no question does not include the words "yes" or "no."
"Is there enough gas in the car?" "I just filled it yesterday."

Part III Short Conversations

The directions for Part III of the TOEIC appear on the test as follows:

Directions: You will hear some conversations between two people. You will be asked to answer three questions about what the speakers say in each conversation. Select the best response to each question and mark the letter (A), (B), (C), or (D) on your answer sheet. The conversations will be spoken only one time and will not be printed in your test book.

TIPS

- Look at the question before the dialog begins. If you have time, look at the answers as well.
- While you are listening to the dialog, try to imagine where the speakers are.
- Read all the answers before making your choice.

TRICKS

- Watch out for answers that are true, but are not related to the question. Don't answer too quickly. Read all the options before you choose.
- Watch out for distracting numbers. These may include dates, times, and numbers of things or people. Preview the question to help you listen for the right information.

Part IV Short Talks

The directions for Part IV of the TOEIC appear on the test as follows:

Directions: You will hear some short talks given by a single speaker. You will be asked to answer three questions about what the speaker says in each short talk. Select the best response to each question and mark the letter (A), (B), (C), or (D) on your answer sheet. The talks will be spoken only one time and will not be printed in your test book.

TIPS

- Listen closely to the introduction preceding the talk. It will tell you the number of the questions related to the talk. It will also tell you what type of information you will hear (news report, weather report, advertisement, recorded message, announcement, etc.).
- Try to preview the questions before the talk begins. This will help you listen for the information required by the questions.
- Begin to answer the questions as soon as the talk is finished. Don't wait for the speaker.

TRICKS

- Watch out for the same traps that are in Parts I-III.

READING TEST

In this section of the test, you have a chance to show how well you understand written English. There are three parts to this section, with special directions for each part.

Part V Incomplete Sentences

The directions for Part V of the TOEIC appear on the test as follows:

Directions: A word or phrase is missing in each of the sentences below. Four answer choices are given below each sentence. Select the best answer to complete the sentence. Then mark the letter (A), (B), (C), or (D) on your answer sheet.

Example:

Because the equipment is very delicate, it must be handled with -----.

- (A) caring
- (B) careful
- (C) care
- (D) carefully

Sample Answer

(A) (B) (C) (D)

The sentence should read, "Because the equipment is very delicate, it must be handled with care." Therefore, you should choose answer (C).

TIPS

- Don't worry about spelling. Incorrect spelling is never an option in TOEIC answers.
- Look at the words on either side of the blank. They can give you clues about what the correct answer is.
- Read the whole sentence and understand the meaning before you answer.

TIPS

- Watch out for answers with the wrong word form.
e.g. *drove, drives, driving*
- Watch out for words that use the same beginnings or endings.
e.g. *return, retire, reuse*
- Watch out for commonly misused words.
e.g. *affect/effect, lend/borrow*

Part VI Incomplete Texts

The directions for Part VI of the TOEIC appear on the test as follows:

Directions: Read the texts on the following pages. A word or phrase is missing in some of the sentences. Four answer choices are given below each of these sentences. Select the best answer to complete the text. Then mark the letter (A), (B), (C), or (D) on your answer sheet.

Example:

As of June 15th, employees will be ----- to wear full company uniform whenever

1. (A) requiring
(B) requirement
(C) required
(D) require

they are on company premises. This ----- to all employees who work in areas of the

2. (A) considers
(B) applies
(C) works
(D) implements

Sample Answer

- | | | | | |
|----|-----|-----|-----|-----|
| 1. | (A) | (B) | ● | (D) |
| 2. | (A) | ● | (C) | (D) |

building accessible by members of the public. The full uniform consists of a white shirt, green pants, and the company tie for men.

The sentences should read “As of June 15th, employees will be required to wear full company uniform when they are on company premises. This applies to all employees who work in areas of the building accessible by members of the public.” Therefore you should choose answers (C) and (B).

TIPS

- Remember that you are looking for the most appropriate word to fill in the blank.
- Read the whole text, not just the words around the blank. Try to get the meaning of the text.

TRICKS

- Watch out for repetition and redundancy
e.g. *keep on continuing, finally at last*
- Watch out for words that don't belong
e.g. *The apples they are fresh.*
- Pay attention to word form and verb tenses
e.g. *nice/nicely, had gone/has gone*

Part VII Reading Comprehension

The directions for Part VII of the TOEIC appear on the test as follows:

Directions: In this part you will read a selection of texts, such as magazine and newspaper articles, letters, and advertisements. Each text is followed by several questions. Select the best answer for each question and mark the letter (A), (B), (C), or (D) on your answer sheet.

Read the following example.

The Grenville Museum Of Technology is a “hands-on” museum, designed for people to experience science at work. Although this kind of museum may be fairly common nowadays, Grenville was the first of its kind in the U.S. Visitors are encouraged to use, test, and handle the various objects on display. Special demonstrations are scheduled for the first and second Wednesday of each month at 13:30. The museum is open Tuesday-Friday 12:00-16:30, Saturday 10:00-17:30 and Sunday 11:00-16:30. Admission is \$2 for children and \$3 for adults.

At what times during the month can visitors see special demonstrations?

- (A) Every weekend
- (B) The first two Wednesdays
- (C) One afternoon a week
- (D) Every other Wednesday

Sample Answer

(A) ● (C) (D)

The reading selection says that the demonstrations are scheduled for the first and second Wednesdays of the month. Therefore, you should choose answer (B).

TIPS

- As with Part IV, pay attention to the introduction. It will tell you the number of questions and a hint about the type of information in the passage.
- As you read the passage, ask yourself, “Who is it for? Why was it written?”
- First, glance quickly through the passage and read the questions. Then, go back to the passage and try to look for the answers to the questions.

TRICKS

- Many answers use information that appears in the passage. However, they may not directly answer the question.
- As with all sections of the TOEIC, watch out for similar sounding words, confusing numbers, wrong word forms, and words with similar meanings.
- Don’t be confused by questions that follow these formats:
 - e.g. Which of the following is NOT mentioned in the reading?
 - The text refers to all of the following EXCEPT...
- Simply read the answer choices and find the one that is unfamiliar or incorrect.

It seems that the medication you have been taking is working well. Unfortunately, we do not have a record of the name of your medication on file. Can you remember the name of the medication that you are taking? If you could send an email to my nurse with the name of the medicine, that would be very helpful to us. Also, there is a note in your file stating that you want your medical test results sent to your insurance company. Which department do you want them sent to? Please let us know as soon as possible.

Questions 8 through 11 refer to the following chart and information.

This is a chart of the Food Pyramid. The Food Pyramid serves as a basic guide to making healthy food choices. If you take a look at the guide you can easily see which food groups you should be eating. According to the pyramid, most of your daily food should consist of breads, rice, and cereals. These are the foods in the bottom level of the pyramid. Almost equal to these, but not quite as much, should be vegetables and fruits. Therefore, you can feel free to go ahead and eat lots of fruit and vegetables every day. Servings of meat, fish, eggs, and dairy foods, which include milk and cheese, should be much smaller. Sugars should be the smallest portion of all. Of course, your daily nutritional needs will vary according to your activity level and life style. You do not have to follow the Food Pyramid, but it is a good way to be sure you will get the healthiest benefits from your daily food. Memo

To: Jennifer Martin, Sports Equipment Manager
From: Clive Wilbur, Management Committee Chairperson
Re: June 25th Annual General Meeting

I know that you will be unable to attend this year's meeting on the 25th, so I am sending you the agenda now. Please take a look at it before the meeting and give me your opinion on the items.

We have decided to resurface the tennis courts and need to choose from three contractors. I will send you their price lists and a voting form later. Every one at the meeting will have a chance to vote. As you know, we have suffered a lot of broken windows recently. I would appreciate it if you could fax me your ideas on how to deal with this problem. The fourth item on the agenda refers to renting equipment. We will limit rentals to one hour on weekends and two hours during the week. Only members will be able to rent equipment on weekends. This brings us to the next item: all members will be required to show their membership card in order to use the sports center at a discounted price.

Please send me your thoughts as soon as possible, and I will talk to you in person when you get back from your vacation.

Many thanks.

By Alex Herd, Fullgate University Admissions Office. It is time to start applying for university. Some students will be successful, but others will not. If you have dreamed of being admitted to Fullgate University, this article can show you what to do to improve your chances of success. First, you must apply early. You must apply before the application deadline. This is, perhaps, the most important consideration. We receive a lot of applications from excellent students who we have to reject because they sent us their application far too late. Make sure to apply before January 17th. Fullgate University believes that after-school activities such as volunteer work, sports participation, and employment are very important. We look for any activities that help develop a student's character. Your grades are not the only aspect we consider. Finally, Fullgate University looks closely at letters of recommendation. We require at least three letters of recommendation. These should be written by people such as your teachers, sports club coaches, employers and the leaders of any volunteer organizations you belong to. We suggest that you get these as soon as possible so you can submit them with your application.

2004 Figures from the National Labor Board Merston City Careers Counseling Service

Dear teachers,

Please find enclosed 20 color posters. The Merston City Careers Counseling service, in association with the Merston City Board of Education, would like to ask all Merston City High schools to join the "Stay in School campaign." Taking part is simple. Please display the posters in your classrooms. It is part of our ongoing campaign to encourage kids to continue their education after high school. If you read the following information, you will understand why we believe this campaign is so important.

It really can pay to stay in school. According to information released by the National Labor Board, the higher a person's education, the more money he or she can make. Though there continues to be a pay difference between men and women, both groups definitely do better the longer they stay in school. For men with only a high school diploma, the average pay is twenty-two thousand dollars a year. Women with a high school diploma earn about eighteen thousand dollars a year. Adding two years of school increases the yearly wages for men to thirty-one thousand dollars, and twenty-six thousand dollars for women. Finally, completing four years of university earns men thirty-eight thousand per year and women thirty-four thousand per year. So the choice is clear — it is important to stay in school if you want to earn more money.

Thank you for your time and assistance. Together we can make a difference.

Sincerely,
Merston City Careers Counseling Service

Tidy Tools
101 Main Street
Littlebury, WI 38843

Mr. J. Bevan
234 Main Avenue
Pittsburgh, PA 12244

Dear Mr. Bevan,

Thank you for your recent letter regarding our All-Power vacuum cleaner. I am happy to answer your question. The All-Power can, indeed, be used outdoors. In fact, according to recent consumer reports, many people feel it is more efficient outdoors than any other similar vacuum cleaner. Since the unit is cordless, it can be used anywhere. This means there are no limitations on movement, making it perfect for cleaning hard to reach places around the home and garden. It is also double-insulated for safety, so it is safe to use in most weather conditions.

However, I would recommend being careful whenever you use an electrical appliance outside. I would advise against using the All-Power in heavy rain. Exposing it to too much moisture may harm it. I would also suggest storing it inside. If you store it outdoors, the moisture in the atmosphere may cause the engine to rust. While the engine is easy to replace, we want all our customers to enjoy their products problem free for as long as is possible. Take good care of your All-Power and it will give you many years of service.

Please do not hesitate to contact me if you have any more questions.

Yours sincerely,

Albert R. Jones

Making Life Easier in the Home

This month in *Golden Age Magazine* we would like to share some tips for making life easier as you get older. These tips are all quick and easy, and most importantly, they won't cost you a lot of money. Here are a few ways that senior citizens can make their homes more comfortable and less dangerous places to live:

- 1) When lining your garbage can with plastic bags, put 6 or so extra in the bottom. When you fill one, you will have another at your fingertips to replace it.
- 2) Store heavy items on center cabinet shelves, light objects on high or low shelves. This way you won't risk straining your back to pick up heavy objects.
- 3) Put a night safety light in your hallway or bathroom. Installing a light can help reduce night-time accidents. If you use a glow-in-the-dark light switch, even better!
- 4) Sticking traction strips on slippery surfaces is essential, especially on tiled surfaces such as bathrooms. Traction strips are available from most major retailers.
- 5) Be sure to remove clothes from the dryer with a reacher. This will help you protect your back. These are just a few ways that you can help make your daily living more enjoyable.

22 High Street
Everton
May 22nd, 2005

Margaret McCarthy
14 Martins Street
Everton

Dear Ms. McCarthy,

Thank you for your recent inquiry about PowerGen Electricity. I apologize for not replying sooner; however, we have been having some trouble with our customer address database. This problem has now been resolved and I am pleased to answer your questions.

In your letter, you asked for advice on how to cut your electricity bill. We are aware that our customers want to find the most efficient, yet economical ways to use electricity in their homes. You might be surprised to learn that cutting down on electric costs is easy to do. I am enclosing a chart of the average energy costs of most major home appliances. All you need to do is look at the chart, work out how many hours you use an item in an average week, then multiply that number by cost per hour. If you do this for each item on the list, you can calculate your monthly charge.

e.g. If you use your washing machine everyday for one hour, you will need 17.5 cents per week. To reduce costs, wait till you have enough clothes for a full load. You could cut as much as 5 cents. This may not sound like much, but imagine reducing the time for every appliance. The total savings will add up.

I hope this helps you.

Sincerely,
Alan Bredhurst

Use the chart below to work out your monthly usage. We have listed the most common household appliances that most people use on a regular basis.

Appliance	Average Energy Cost
Clock	4¢/week
Computer w/Monitor, Printer	77¢/week
Electric Blanket (125 watt)	1.1¢/hour
Hair Dryer	9.9¢/hour
Radio	11.0¢/10 hours
Stereo	16.6¢/10 hours
Television	22.9¢/10 hours
VCR	2.3¢/hour
Washing machine	2.5¢/hour
Microwave oven	12.6¢/hour
Oven	11¢/hour

Children and Television

A lot of research has been done trying to determine the effects of television viewing on your child. Some research shows that television is harmful, but is television really harmful to your child? You know that your child loves to be entertained. All children enjoy cartoons and movies. But are these things good for them? How can you monitor your child's television viewing? Here are some tips parents can take to help reduce television's negative effect on their children.

1. Watch television with your child — too often TV is used as a cheap babysitter. Know what your child is watching and don't be afraid to turn off the television if you think there is nothing good on.
2. Choose programs carefully — after watching a show, start a family discussion. Ask your children if they understand what the television program was about.
3. Don't let your child have a TV in the bedroom — know what he or she is watching. Televisions and computers should be kept in a common area so parents can see what their children are watching.
4. Don't watch TV during meal times — eating together is an important part of family life. Use meal times to talk about the day's events. Ask your children about their day and tell them about yours.
5. Establish regular viewing times — don't keep the television on all day.

There are many educational programs out there, so, used carefully, television doesn't have to be a meaningless distraction.

Dear Ms. Price,

This is just a quick note to confirm that I have two tickets for this Friday's performance of *Cats* at the Perth Arts Center. As I mentioned before, the show starts at 8:00. Our senior sales manager and I will meet you in the lobby at 7:30. The company driver will pick you up at the motel at 7:00 o'clock. After the show, there will be a company dinner at The Point.

Please contact me if you have any questions about the schedule. I have also enclosed a show program that you might find interesting.

Yours truly,
Maggie Hayward
Sales Director

Cats, a musical comedy about cats.

The musical comedy *Cats* is set in London's East End and follows the lives of a family of cats as they try and start their own newspaper publishing company. The father cat, Fredrico, had a lifelong dream of having his own newspaper called the *Daily Meow*. Assisted by his lovely wife Tiffany, their daughters Lucinda and Geneveve and their slightly crazy son Pannini, this family of felines sings and jokes their way into everyone's heart.

As you watch the play, you will hear such musical treasures as; "Baby, Don't Eat the Green Salami," "The Marmalade Cat Shuffle," and the unforgettable, "I'm Not Crazy—Just Misunderstood."

Because this is a sold-out performance, all attendees are requested to arrive one hour before the start of the show. Also, we ask that you do not bring any pet dogs or mice to the show, as these animals will excite the actors.

Cats, a furry good time!

Dear Customers,

Beginning next month, we will no longer be accepting Orange Cat Coffee Coupons. The recent increasing price of coffee beans has made it difficult to keep both the everyday low prices that our customers have come to expect and the high quality of our drinks. We have decided not to raise prices. Instead, we will do away with the coupon system. We will continue to accept coupons until the end of the month.

Thank you for choosing The Orange Cat.

Sincerely,
The Management

Questions 4 through 7 refer to the following notice.

Notice to All Employees

As part of our "Good Health" policy, we wish to inform our employees of the new no-smoking policy in the office. In order to create a clean working environment, smoking is no longer allowed in the office break-room or in the restrooms. All offices, of course, remain no smoking areas. The only area in which smoking will be allowed is the new smoking lobby near the parking area. Although this is outdoors, it is a covered area. Therefore it is possible to use it in all weather conditions. Also, we are not allowing smoke breaks longer than five minutes for every one hour period. This means that smokers may take a five-minute break each hour of work or a ten-minute break every two hours of work. We will not be monitoring workers, but we do expect you to stick to this timing. For a cooperative office atmosphere, we need workers to feel that everyone is working equal hours. As this is the official policy for the company, no exceptions will be allowed. From next month, we will be introducing a bonus system for all employees who give up smoking for more than three months. More information will be given at a later date. If you feel that this policy is somehow unfair or that you are being discriminated against, we encourage you to contact your department's supervisor.

Thank you.

Questions 8 through 11 refer to the following article

How Not to Succeed in Your Job

Many magazines have articles on how to be a success, but here at *Business Monthly, the Magazine for Busy Businesspeople*, we thought it would be helpful if our readers knew how to fail.

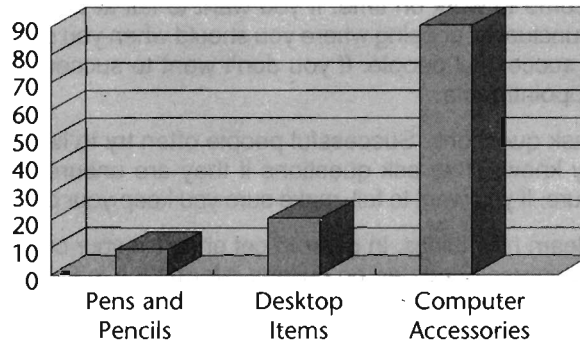

- Step One:** Don't come to work on time. If you want to fail at work, then don't be on time. Punctuality, or being where you should when you should, is a common trait of successful people. If you don't want to succeed, be late for all of your appointments.
- Step Two:** Don't ask questions. Successful people often try to learn what they don't already know. They ask questions if they are unsure of a situation or a procedure. If you want to fail, make sure you keep your questions to yourself.
- Step Three:** Never learn new things. In order to get ahead in your career, it is necessary to keep yourself updated on current information in your field. Information changes quickly; if you want to be left behind, then don't keep up with the changes.
- Step Four:** Don't mind your own business. MYOB, or Mind Your Own Business, means not getting involved in office gossip. If you talk about others behind their backs, then you can expect that others are talking about you as well. So if you want to fail, stick your nose where it does not belong.

8. According to the article, what does punctuality mean?
- (A) Having good punctuation when writing
 (B) Being where you should
 (C) Being successful
 (D) Being where you should, when you should
9. According to this article, what is true about successful people?
- (A) They are late, don't ask questions, and never learn new things.
 (B) They are late, don't ask questions, and try to learn new things.
 (C) They are late, ask questions, and try to learn new things.
 (D) They aren't late, ask questions, and try to learn new things.
10. What does MYOB mean?
- (A) That you should study about business in school
 (B) That you should not get involved in office gossip
 (C) That you should prepare to own your own business
 (D) That you should talk a lot about other people
11. What are the steps of failure?
- (A) Being late, not asking anything, gossiping, and not learning
 (B) Being late, asking questions, talking about others, and not learning
 (C) Being punctual, not asking questions, gossiping, and not learning
 (D) Being late, not asking questions, not learning, and not gossiping

**Theft at Work: Results of a Survey of 100 Office Workers
(Workers aged 25-35)**

Source: Survey and Polling Institute of New York

Theft at Work

According to a recent survey, a majority of workers don't consider taking paper and pens home from work to be stealing. The Survey and Polling Institute of New York interviewed one hundred office workers aged 25-35. All of the workers had been at their current place of employment for at least 2 years. All workers were working full time. "I don't steal. I'm not a thief," says one man who has been working for his company for five years, "Sometimes I take office supplies home... but that is different from stealing." He said that he usually gave paper and pens to his children for school homework. "I work hard for this company, and I think the office supplies are a perk of the job. Anyway, I often use the pens to do extra work at home, too. Do I really need to buy pens just to do company work at home? I don't think so." According to the chart above, only 8 percent of people think that taking pens and pencils from work is stealing. This means that 92 percent don't think of it as theft. In the same group, only 20 percent said that taking desktop items like staplers and memo holders was stealing. 80 percent did not consider it wrong. However, 90 percent said that taking computer accessories like a mouse or a keyboard was wrong. They said that taking cheap items was OK. Obituary Audrey Sarah Ives

Beloved wife of Albert, mother of Joan and George

It is with great sadness that the Ives family notes the passing of Audrey Sarah Ives. Mrs. Ives, aged 82, died at her home on Tuesday morning, having been in bad health for the past 18 months. She had suffered from heart trouble for the past year. She was a well-known amateur artist and often exhibited her best works at the Greenwich Art Society. Her paintings toured throughout Europe, and she even painted a portrait of the Queen. Her greatest achievement was the Alford Prize, which she won in 1985. She was the younger sister of the well-known sculptor Annie Taverner. Although not as well known as her sister, many think her talent was greater. Mrs. Ives was also a concert violinist in her younger days and performed with the Pinedale Orchestra. She also served in the Peace Corps for five years as a nurse's aide in Rwanda where she was awarded the Queen's Medal for Valor when she assisted an injured tourist who was attacked by a tiger. Mrs. Ives fought the tiger with her bare hands and then provided life-saving medical attention to the tourist. In addition to her husband Albert, she is survived by a son George, a daughter Joan and four grandchildren. Flowers can be sent to the Pine Grove Funeral Home in Spring Valley.

Questions 12 through 16 refer to the following letter and reply.

Dear Mom,

How are you? How is Michael? I hope that he has stopped sneezing and coughing.

I am doing really great. I am really enjoying my tour of the museums of Europe. I have been to the Louvre in Paris. It was really exciting seeing the real *Mona Lisa*, but I was disappointed because it was so small. Right now I am in Spain. I have visited Madrid, and now I am in Barcelona. There are so many museums to visit that I don't know where to begin!

The admission fees are much more expensive than I expected, so I can't see everything that I wanted to see. Some days I have to choose between having lunch or going to a museum! However, the museums in Spain are not as expensive as the museums in France. I want to go to Italy next. I hear that Florence has the best art of any city in Europe. Next time I will call you—if I have money. (Maybe Sunday June 20th at 6 p.m.?)

With love,
Sally

Dear Sally,

Thank you for your letter. Michael is fine. He just had an allergic reaction to seafood—that's all. I'm really happy to hear about your trip. It sounds so exciting. I remember that your father and I first met in Paris, and hearing about your trip brings back a lot of memories. The weather here is a little cloudy, but hot. Your father is in the backyard right now digging up the weeds from the flower garden. Mrs. Williams from the supermarket told me to tell you hello—so "Hello." Michael also says hello.

Write again when you have more time,

Love, Mom

p.s. I'll send a phone card so you don't have to spend your museum money on telephone charges.

Paintbrush Storage Tips

Good paintbrushes can be very expensive, so we here at *Hobby Artist Magazine* have made some suggestions to help keep your paintbrushes in good shape.

First, always clean your brushes right after using them, because some paints have acids that can weaken the brush over time.

Second, clean your brushes with a mild cleaner. We recommend a mixture of one part alcohol and three parts water.

Questions 8 through 11 refer to the following letter.

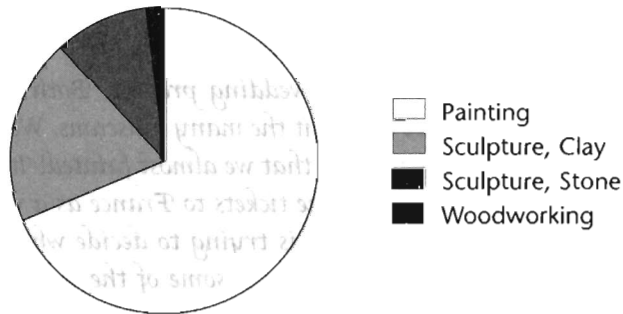

Dear Grandma and Grandpa,

Thank you both for the wonderful wedding present. Both Jill and I have always wanted to go to France and visit the many museums. We were so shocked when we first saw the airplane tickets that we almost fainted! It was more than we could have hoped to receive airplane tickets to France as a wedding present! Paris is wonderful! The only trouble is trying to decide where to go. I want to go to the museums, but Jill wants to see some of the beautiful traditional churches. In the end, we decided to see the churches in the morning (when the weather is cool), and the museums in the afternoon (because they're air-conditioned). This allows us to get the most sightseeing done during our two-week stay. There are many coffee shops, too. Jill likes sitting outside and watching people, but I like sitting inside where I can enjoy the smell of the coffee. French coffees are so much more aromatic and stronger than the coffee we are used to back home. Thanks again for the lovely trip! We sent you a postcard, but I think we will arrive back home before you get it. It is a picture of the Eiffel Tower.

*Love,
Freddy and Jill*

Questions 12 through 16 refer to the following survey results and article.

What do students consider to be “art”? According to the World Arts Council, most students who were asked this question considered art to be painting. Almost seventy percent of students age 15 through 18 said that painting was art. This takes into account all manner of painting from watercolor to pastels, oils, and acrylics. A much smaller number, twenty percent, said that sculpture was art. This number includes students who said that sculpture included wood and clay. Eight percent said that stone sculpture was art. Only two percent of the students surveyed thought that working with wood was art. “I think that paintings are artistic,” one student said, “but sculpture isn’t.” According to Liza Melter, art director at Bandas University, students tend to associate art with color; things that lack color aren’t considered art. This research will be used in the future to help better develop high school and university art curriculums.

Newspaper clipping

Local high-school teacher communicates with blind students via sculpture. Matt Creaborne, an art teacher at Crestview High-School, recently began using sculpture to assist blind students with such subjects as math and geometry. He got the idea by watching the great Spanish sculptor Rigo Rossi use his hands to count off measurements as he sculpted. “By using their hands, students can feel things like distances and spatial relationships,” Mr Creaborne said. “This allows them to think abstractly, just like in geometry.” Mr. Creaborne’s technique will be tried in several other schools this fall including three high schools for blind learners. According to Jim Miller, director for assisted student learning, Mr. Creaborne’s methods should help visually impaired students match non-visually impaired students in terms of their test scores in mathematics. “We are looking forward to big improvements in test scores in the next few years,” Mr. Miller said.

The Manager
Audios Etc.
Head Office
London

Dear Sirs,

I recently bought a programmable CD player at the Hartley branch of Audios Etc. Your company was recommended to me by several of my acquaintances. Therefore, although it was the first time I had visited one of your stores, I was sure you were a trustworthy company.

When the CD player was delivered to my house, I found that the player was the wrong color. I asked for black; however, the player that was delivered was red. I telephoned the Hartley branch, and a very friendly clerk arranged for it to be changed. This time the programming function did not work. Again, the store changed it. Yet again there was a problem. There was a big scratch on the paintwork. I had been led to believe that Audios Etc. was a reliable company. This experience has proven the opposite to be true. I would therefore like to formally register my dissatisfaction and demand a refund. Please find enclosed a completed customer complaint form.

Yours faithfully,
Matt Greer

World Marathon Record Beaten!

Jeanne Smedley has just set a new world record in the Capital City Mini-Marathon. Smedley, 26 and a native of Capital City, set a new record of 27 minutes and 14 seconds. This is not only the fastest time ever run by a woman, but beats the fastest time for men as well. Remarkably, not only did Smedley run fast enough to win the race and beat the record, but she also had time to stop and help another runner who had fallen down. Said injured athlete Meg Connors of Smedley, "I was amazed that she stopped to help me. She lost a lot of time, but she is such a kind person. I've never seen her do anything selfish."

Beth Mulgrew, another runner, said "Jeanne is a true champion. We need more people like her in sport. She is a great role model for young people."

Smedley began running at an early age. "I used to help my father make deliveries in our neighborhood. The faster that I could deliver things, the more money he would pay me. So I would run as fast as I could to make each delivery. I soon got pretty good at running."

Jeanne Smedley will be receiving her gold medal and a \$1,000 prize in front of the City Zoo at 2:00 p.m. on Monday.

Questions 8 through 11 refer to the following letter.

Hi George,

How are you doing? Sorry I haven't written lately. I keep meaning to, but then I get too busy. I've had no available time at all recently. Soccer try-outs have been keeping me pretty busy. I've had no time to do anything except practice, practice, practice all day long. The weather is a little rainy and it keeps the grass wet. That makes it very difficult to run and stop well. A lot of the players get their soccer boots stuck in the mud. I'd really like to get another pair of soccer boots because mine are ruined from the mud, but I don't have any money at the moment. I wanted to get a part-time job to make some money to buy boots, but I don't have the time. So for now, a new pair of boots is just a dream.

I think I have a good chance of being selected for the team. They need to get rid of two more players, and I think that I am better than they are. You know how badly I have always wanted to play professional soccer. If I get chosen for the team, I'll send you free tickets to every game I play!

Questions 12 through 16 refer to the following survey results and letter.

-  Extreme Downhill Skiing
-  Extreme Trick Snowboarding
-  Extreme Urban Skateboarding
-  Extreme Vertical Mountainbiking

What do today's teens prefer?

In a survey done at Franklin Pierce High School, students had a wide range of options. Overall, however, students seemed to favor extremely fast sports. "Extreme speed is awesome," said 17-year-old Brock Nakamura. Students like their sports, and they like them fast. The most popular sport was extreme urban skateboarding. 52 percent of the students ranked this as their number one choice. "I think it's because most kids have skateboards," said 17-year-old Gwyn Park, "The other stuff on the list is too expensive for us to afford." Snowboarding came in second, with 26 percent of the votes. Downhill skiing placed third, with 17 percent of the votes. Mountain biking was last, with only 5 percent of the votes.

Dear Teachers,

Please read the attached survey. The results of this survey appeared in the Franklin Weekly News, and I think that they should be of interest to all physical education teachers in Greenville. Media reports are always talking about a nation of unfit youngsters. These days it is increasingly difficult to get our students interested in sports. I believe this is because until now, we have been offering traditional sports such as baseball and basketball. Of course, these will always appeal to a number of students, but there are a lot of students who, as the survey shows, want greater excitement. I am proposing to the Board of Education that they allow us to introduce new, more exciting sports to our curriculum. There are a couple of skateboarding parks in town, and I think we should be allowed to book them for lessons, or for after-school activities. This is just a small start, but with time I hope to expand the program, perhaps even constructing skateboarding equipment on school grounds. Please let me know what you think of my proposals, or if you have any suggestions of your own.

Regards,
Winston Green

Questions 4 through 7 refer to the following article.

How often do you use a vending machine? If you are like most people, you probably use one every day. They can be found all over the world. In America, these machines make billions of dollars every year.

Vending machines sell almost every kind of product that you can think of. Some of them sell drinks, while others sell candy and snacks. For workers who don't have any time for lunch, many businesses and public buildings provide vending machines that also sell soups, salads, sandwiches, fruits, and desserts. Vending machines may also offer products such as stamps, train and bus tickets, newspapers, and other kinds of merchandise. There are even some vending machines that sell flowers.

Vending machines have been a great success since they were first introduced to the marketplace. What are some of the reasons for this success? First, they save time. You may not have time to go to the store during your break to buy a soda, but you can go to the vending machine in the corridor. Secondly, they are open 24 hours a day. You can buy something even when all the local stores are closed. Another reason is that customers usually don't need to wait in line. At the store there may be many people in front of you and you have to wait for the cashier to serve you, but at the vending machine your transaction is all finished in moments. Lastly, the machines save companies money because there is no need for salesclerks and cashiers. The machine will do all the work and it doesn't need to be paid a salary or

Ice Cream Survey Results Survey Conducted by *Food and Drink Monthly* in cooperation with "Dairy Delights"

Summer is once again approaching, and although nowadays ice cream is a treat enjoyed by most people throughout the year, its sales soar in the summer months. When we were young, the choices were simple: vanilla, chocolate or strawberry. However, nowadays the variety of ice cream flavors is almost limitless. Here at *Food and Drink Monthly* we decide to find out just what kinds of ice cream young people enjoyed these days. We got together with well-known ice cream manufacturer "Dairy Delights" to do some research.

A survey was made of one hundred thirteen year olds: 50 boys and 50 girls. They are asked to taste six kinds of ice cream and then choose their favorite flavor. The choices were vanilla, chocolate, strawberry, raspberry, green tea and chocolate chip. The taste test participants were blindfolded so that they could not see any of the ice cream. Every participant was given a glass of water to rinse out his or her mouth between tastings.

The results showed that few of the participants liked green tea ice cream. Some of them said it tasted bitter. Most participants chose vanilla as their favorite flavor, followed by chocolate. The two fruit flavors, strawberry and raspberry were next, chosen by almost equal numbers of people. It seems that despite all the different flavors available nowadays, the old classic is still number one.

Food and Drink Monthly would like to thank "Dairy Delights" for providing the ice cream for the tastings, and "Quick's Surveys and Polls" for their assistance in monitoring the survey. "Dairy Delights" ice cream can be found in all major supermarkets.

Questions 4 through 7 refer to the following short article.

Science Life Weekly: A review of the New Scientist Seminar

Many different topics were being discussed at the New Scientist Seminar held last Saturday at the Royal Port Convention Center in Centerville. This international seminar, held annually, provides a chance for some of the world's top scientists to present new ideas and research. Dr. Thomas Avery, a leading expert in the field of medical ethics, gave the most interesting presentation called, "What if people were eaten by cows?" The main idea was about how we would feel if we were kept in a small field all our lives and then used for food. The presentation was humorous, but it also made people think about how we treat the animals that we eat. Dr. Avery said, "I was given an invitation only last week, so I had little time to prepare." However, everyone agreed that it was the best presentation of the day. People came from all over the world to attend this year's seminar. One professor from India said, "I have been coming to these seminars for twenty years. This is the best one ever." Next year's seminar will be held in Beijing. This will be the first time that the seminar has been held in Asia.

4. Where was the New Scientist Seminar held?

Questions 8 through 11 refer to the following graph.

Where are we in space?

If middle school children were driving us around in a space-ship, we might all be lost! According to a survey of 100 middle school students taken at the end of last semester, understanding our place in space is pretty hard. The students were quizzed on the meaning of basic terms related to space including “solar system,” “galaxy” and “universe.” The good news is that 74 percent of students knew that a solar system is a group of planets that revolve around a sun. Perhaps surprisingly, most even knew that the word “solar” comes from the Latin “sol” which means “sun.” The bad news is that only 23 percent of students knew that a galaxy is a group of solar systems, stars, and planets. The Earth is included in the Milky Way Galaxy. The really bad news is that only 12 percent of students knew what the universe is. The universe is all of space. The survey also showed that few students were able to name more than 3 or 4 planets. Even fewer students were able to put planets in the correct order in terms of distance from the sun. Some improvement in students’ knowledge of space can be hoped for in the future as students enter high school.

- 8. According to the information, which finding was somewhat surprising?
 - (A) Students know what “sol” means.
 - (B) Our solar system is in the Milky Way Galaxy.
 - (C) The universe is all of space.
 - (D) 100 middle school students took the survey.
- 9. What do the numbers on the left side of the graph represent?
 - (A) Distance from the sun in space
 - (B) Number of people
 - (C) Points on a test
 - (D) Percent of science classes
- 10. What did the middle school students know about best?
 - (A) The solar system
 - (B) The galaxy
 - (C) The universe
 - (D) The Milky Way
- 11. Which of the following is NOT mentioned as part of a galaxy?
 - (A) Stars
 - (B) Planets
 - (C) Moons
 - (D) Solar systems

Questions 12 through 15 refer to the following notice and form.

Notice to all Biology and Chemistry students

The Science Department will no longer be supplying students with glass test tubes. From the beginning of next month, students in the Biology and Chemistry Departments will have to bring their own test tubes to class.

In the past, a lot of money has been wasted by the school lab trying to replace broken test tubes. We are afraid that we can no longer afford to do this.

Test tubes are being sold at the school bookstore, located in Newman Hall. The cost is \$1.00 per test tube. We have attached an example order form. It is advisable for all Biology and Chemistry students to place large orders in advance. If you do this, you can get a reduced price of ten test tubes for \$8.50. Simply fill out the order form and take it to the store at least one week before you need your test tubes. Of course, you may buy test tubes directly from the store, but you will be limited to two tubes at one time. There is no limit on orders placed using the form below.

It is important to note that there are two kinds of test tubes on store at the bookstore: glass and plastic. Only glass test tubes will be allowed in chemistry classes; however, biology classes will permit either glass or plastic test tubes. It will be possible to use the test tube cleaning equipment in the laboratories. Time will be allotted at the end of each session to allow students to clean their tubes. For security purposes, I am afraid that you will not be able to store your tubes in the labs.

Thank you for your cooperation.

 Re: COUNTRY SQUIRE GRAND PRIX
 Date: January 3, 2005

Swifts Motors is proud to be the official sponsor of the Country Squire Grand Prix in Flagstaff Arizona on Friday, April 1, 2005. This is our tenth year as the official sponsor.

We know that this grand event is eagerly awaited by everyone here at Swift Motors. As an employee of Swifts Motors, you will receive a 30% discount on general admission to the big race in Flagstaff. Because we value employees and their families, you will also be given free vouchers for the hospitality tent where you can enjoy a buffet and drinks during the race (limited to 4 vouchers per family). The buffet normally costs \$15 per person (\$7.50 for children under 12 years of age), so this is a great deal. Families will also get a garage pass giving full access to the garage where they can see the mechanics in action. Unfortunately, because of the potentially dangerous nature of the garage, only children over ten years of age can be admitted to the garage area. We are sorry to disappoint the young ones, but we do have to consider safety. No doubt you will understand our reasons.

There are only 150 seats available in the stands, so make your reservation now. Don't miss out on the event of the year!

Fire Damages Pet Food Warehouse

Rochester: April 1st. Late in the evening of March 29th, a fire caused extensive damage to the Huggy Dog Co. pet food warehouse on West 24th Street. There were no injuries. The only employee on the premises was security guard Russ Loupinek, who called in the fire at 9:47 p.m. Fire fighters arrived minutes later and put out the blaze. Most of the loading area was destroyed. The cost of the damage is estimated at \$400,000.

Early investigations point to a faulty heating system as the cause of the fire. Dear Mr. Galoob,

Thank you for sending me a copy of your latest ceramics catalog. You have been sending us your catalog here at the museum for several years now, and I always look forward to reading it. I was amazed yet again at the variety and creativity that you have displayed in your work. Your vases and bowls are quite exquisite! They look so realistic. They really do resemble the plants and animals that they are modeled after. I would like to order 50 more of the ladybug bowls. They are perfect for holding sugar cubes, but unfortunately we have had a lot of breakages this year. However, it was the scorpion cups that really grabbed my attention. According to the catalog, they are available in small, medium, and a limited number of extra-large sizes. I am interested in purchasing approximately 25 of the extra-large scorpion cups. If they are popular, I may consider ordering more, if the museum has the budget. Please send me information on your available stock. I would appreciate receiving the information by fax. I look forward to hearing from you, and hope that we will be able to continue doing business for a long time to come.

All local citizens! You are invited to the City Park Board open meeting!

Come along and find out what is happening in your local park. The City Park Board open meeting is scheduled for Wednesday, October 17th at 8 p.m. in conference room B of the public library. Agenda items include the following: funding for new snow blowers, construction of a temporary outdoor ice rink for the winter, and next month's Winterfest Bonfire Ball to raise money for equipment for the children's playground.

Local business man Hans Brent has donated \$10, 000 towards the cost. Winterfest Bonfire Ball tickets will be on sale at the meeting. They always sell out fast, so coming to the meeting will increase your chances of getting a ticket.

It is not necessary to notify us of your attendance in advance. However, if you would like to speak at the meeting, or present a report on behalf of a local organization, please contact Glen Tuber at the city office, on 345-5467, extension 4, before October 5th. All speakers must be given authorization before the meeting, so it is essential that you do contact us in advance.

Tips for shopping through the mail

Every year, thousands of people successfully order goods from mail order catalogs. However, some more unfortunate individuals find that the goods they ordered look nothing like the pictures, arrive damaged, or don't arrive at all. Here are some tips to help protect yourself when you shop through the mail.

- Before placing your first order, ask around. Have your friends or family used this catalog before? How was their experience? Were they satisfied with the goods and service? Would they use the company again?
- Read all available information, including the return policy. Look for companies that offer a no-questions asked return policy. Check whether you will have to pay postage if you need to return goods.
- Always include shipping costs and sales tax in the final price when comparing costs. In some cases, the shipping costs can really add up. Make sure you know exactly what you are paying for.
- How long will you have to wait for your order. If you need something in a hurry, shopping by mail might not be the best option.
- Keep records of your orders, including the catalog name, address, telephone number, and the date that you placed the order. Of course, you should also keep track of items ordered, operator name, and expected date of delivery.
- If you encounter any problems with a mail-order company, contact a consumer advocacy group. You can easily find telephone numbers for such groups in the telephone directory or on the Internet.

177. What should be included in the final price?
- (A) Shipping and insurance costs
 - (B) Sales tax and insurance
 - (C) Return cost and taxes
 - (D) Sales tax and shipping costs
178. What should a buyer keep record of?
- (A) Return policy
 - (B) Fine print
 - (C) Operator name
 - (D) Shipping costs
179. When could it be a bad idea to buy something through the mail?
- (A) At busy times
 - (B) If you need something quickly
 - (C) Because the goods are damaged
 - (D) If you don't like the catalog
180. Who should you contact if you have problems?
- (A) Family or friends
 - (B) The post office
 - (C) A consumer advocacy group
 - (D) The phone directory

Research conducted March 22nd.

To: All Branch Managers
From: Sunshine Holidays Marketing Division
Re: Customer Preferences: Competition

As a result of recent research, we have decided to launch a staff competition.

500 British people were recently surveyed by Sunshine Holidays about their vacation plans for the coming summer. 100 people in each of five different age ranges were surveyed. They were asked to indicate which countries they planned to visit out of four possible choices. The choices given were Italy, France, Britain, and Spain. It seems that as they get older, people tend to choose not to travel overseas. As we can see from the table, the older participants chose Britain as their first choice to visit. When asked about this choice, they gave several reasons, including fears about health problems and access to medical care, worries about communicating in a foreign language, and the desire to spend time with their grandchildren during the school vacations. The youngest group of participants chose Spain as their favorite. They said it was because of Spain's reputation as a fun and lively place with beautiful beaches. However, overall, France was the most popular destination for all age groups. This is because of its close location to Britain.

We want to increase the number of older customers visiting Spain (target A), and the number of younger visitors traveling within Britain (target B). For this reason, we are launching a staff competition. Please submit your ideas to increase the number of customers in either target group A or target group B. The two lucky winners will win an all-expenses paid trip to Bermuda.

181. What were the people surveyed about?
- (A) Their vacation plans
 - (B) Countries they had visited
 - (C) Ski resorts in Europe
 - (D) General knowledge about four countries
182. What is the purpose of this memo?
- (A) To introduce Sunshine Holidays
 - (B) To announce a competition
 - (C) To talk about medical care and health
 - (D) To introduce France, Italy, Spain and Britain
183. Which country was the most popular with all age groups?
- (A) Italy
 - (B) France
 - (C) England
 - (D) Spain
184. Which country was the most popular with people in their twenties?
- (A) Italy
 - (B) Spain
 - (C) France
 - (D) Britain
185. How many people in their sixties were interviewed?
- (A) 20
 - (B) 30
 - (C) 100

Mankato Herald Musicians Hurt in Stage Accident

Mankato: July 5th. Cheers turned to tears last weekend at the Summer Classics Music Festival in Woodland Park. Saturday night's concert, the culmination of a week-long celebration, was attended by over 250 people. The evening closed with the first movement from Bach's Brandenburg Concerto No. 5. For this final number, the Mankato Symphony Orchestra was joined by local band Sons of Poseidon, just back from a tour of the former Soviet Union and China. The audience didn't seem to enjoy the performance which featured dueling solos from lead singer, Vince Voxx, and guitarist Barron von Jamz. There are reports of some members of the audience throwing empty cans at the stage. Just minutes before the close of the piece, disaster struck. According to eye witness reports, the band's rotating drum cage began to spin out of control. Some concert goers say that Vince Voxx had tried to throw back some of the cans, and they became entangled in the mechanism of the drum cage. A stagehand managed to disconnect the cage from its power source, but not before the drummer was knocked unconscious. He is listed in a stable condition at St. Gules Memorial Hospital.

The Editor
Mankato Herald
Local Newsdesk,
Mankato

Dear Sir,

I am one of the musicians involved in last weekend's Music Festival, and I would like to say that I feel your reporting was very biased. First, while I saw journalists from many newspapers, I did not see anyone from the Mankato Herald. The details in your report differ greatly from the facts. First, the audience thoroughly enjoyed the performance, cheering and singing along. Cans were not thrown at the stage, and even if they had been, our lead singer Vince Voxx would never do something irresponsible or dangerous like throwing them back at the audience. He is not that kind of person. He can always be trusted to do the right thing. The drum cage did not "spin out of control" and no one was hospitalized. The Mankato Herald has a history of writing negative reports about events involving Sons of Poseidon. I am not sure why, but would like to request that you write more objective articles in the future.

Sincerely,

Johan Greer (Barron von Jamz)

Farmers of Gromatia Be Proud!

The Government of Gromatia would like to thank all its farmers for their hard work this year. Despite the winter flooding and the summer drought, 2005 was overall a great year for the farming industry. As a nation whose income is based on the revenue generated by the produce of our farmers, your work is of the greatest importance to us.

We have sent you the figures for 1995 and 2005, so that you can measure your success for yourselves. However, you will notice that exports were down in certain areas. In particular, coffee was low. These days, coffee drinking is becoming very popular thanks to large chains of coffee shops offering cheap but tasty coffee worldwide. We feel that it is important for Gromatia to gain a position in this market. Over the next ten years, we will be offering subsidies to farmers who plant coffee. We hope that this will enable us to increase our annual exports.

The second area in which we hope to excel is wine. With more leisure time, better education and a desire for luxury, people are becoming more interested in wine. In the past people stuck to the wines of France, Italy and Germany, but now they are looking for more unique wines from smaller locations. This is where we see a niche for us in the market. We believe that this will be our strongest export item by 2015.

Although small, Gromatia has the potential to do very well in the international market. Thank you for your efforts in taking us there.

191. Which product was exported more in 1995 than in 2005?
- (A) Cigarettes
 - (B) Grains
 - (C) Coffee
 - (D) Beef
192. What is true about the export of beef in the 10-year period?
- (A) It increased more than any other product.
 - (B) It increased more than grains.
 - (C) It increased less than wine.
 - (D) It increased more than cigarettes.
193. Which product is expected to increase most in value over the next ten years?
- (A) Beef
 - (B) Whisky
 - (C) Cigarettes
 - (D) Wine
194. What problems did farmers in Gromatia suffer in 2005?
- (A) Sales troubles
 - (B) Climate troubles
 - (C) Strikes
 - (D) Industrial difficulties
195. Why does the government think Gromatian wine will become successful?
- (A) It tastes good.
 - (B) It is cheap.
 - (C) People want more unusual wines.
 - (D) People don't want to drink coffee.

Memorandum

To: All employees
From: Meg Gillio, Office Manager
Date: August 15, 2004
Re: Stationery Recycling Policy

Since our official merger with MAJOR Electronics, Inc. last month, we have continued to use stationery with our former name, Knottzsch Business Systems. Stationery, which carries the new logo, MAJOR Knottzsch Systems, is now available from the printer. All employees are requested to use this new stationery for all official correspondence, effective immediately. Please pick up a supply of the new stationery from Ryan Fischer on the 4th floor. However, in order to reduce wastage and to do our bit to preserve the environment, we are implementing two new systems.

- 1) Sign-out system – each time you receive any company stationery, you must sign a sheet saying what, how much and when you took it. It will be recorded on your employee record card.
- 2) Recycling – we throw away a lot of useable paper every month. All paper must be put in the recycling bins now positioned in each office. A \$30 gift voucher prize will be awarded to the office that wastes the least paper. If your office succeeds in producing the least wastage for three months in a row, each office member will receive a \$20 bonus for each month.

If you take a look at the attached table, I think you'll appreciate why we have made these changes.

Monthly Wastage of Stationery supplies in offices of MAJOR Knottzsch Systems. As you can see, we are extremely wasteful, especially with A4 copy paper. Please do your best to reduce this wastage. Thank you.

PART IV. Short Talks

Questions 1 through 3 refer to the following talk.

(M) A lot of people think that being an animal doctor is very easy, but it is not. First, the training is very difficult. A person has to learn the same basic medical information as a doctor for people. Then, a person has to learn about how different animals have their organs in different places. Human organs are in the same position in all people. However, a dog's heart is in a different location than a cat's heart; animal doctors need to know that. Also, animal doctors need to be good at understanding animals. Animals cannot talk and tell you what is wrong, so you have to learn how to understand without words. I think that this is the most important quality.

Questions 4 through 6 refer to the following talk.

(W) Last Saturday, I injured my ankle playing basketball. One of the players from the other team bumped into me and I fell down. When I fell, my ankle twisted. It was very painful immediately. When I woke up it was very swollen and a little red, so I went to the hospital. The doctor gave me some pain-relieving tablets and told me to take two tablets a day and wrap my ankle tightly with a bandage for one week. He said it was not a serious injury, and that I would be just fine. He told me not to do any exercise for three weeks. I have to rest my ankle so it can heal more quickly. I'm really looking forward to getting back to the basketball court.

PART IV. Short Talks

Questions 1 through 3 refer to the following talk.

(W) I'm not really a good student. I don't often get high grades. I don't usually like studying in school, but there are a couple of subjects I enjoy. My two favorite subjects in school are chemistry and art. I like chemistry because it uses the logical part of my brain. I can work for hours trying to find the answer to a complex chemistry problem. You might be thinking that sounds like math. But it is more interesting than mathematics because then I can go to the chemistry lab and do experiments. It is exciting to see what happens when I do an experiment. On the other hand, I like art because I can be creative. I can express my feelings with a paintbrush. Both art and chemistry let me express different parts of myself.

Questions 4 through 6 refer to the following talk.

(M) My exams today were so difficult. I had three exams. In the morning, I had a French exam. French is really difficult for me, especially French spelling. I can never remember if I need an extra "e" at the end of words and that kind of thing. Then, after lunch I had a history exam. I couldn't remember any of the dates that I studied before the exam. History is the most difficult subject because I find it boring. Finally, in the afternoon I had a math exam. It was difficult, but math is my favorite subject, so I think I did pretty well on the exam. I'm good at math and I usually get high grades, so I'm sure I'll get a good score. Last semester, I got the best grade in my class.

Inside there's a kitchen, living room, dining room, and bathroom. Upstairs there's our bedroom plus separate bedrooms for our two kids. They are looking forward to choosing their own wallpaper to decorate their rooms. There's plenty of room, and we're happy to be first-time homeowners. We were so tired of paying rent to other people. We're going to enjoy living here.

PART IV. Short Talks

Questions 1 through 3 refer to the following introduction.

(W) Ladies and gentlemen, welcome to today's program. On our talk show today, we have three guests. First, this is Mr. Brian Hopkins from Chicago, Illinois. Next to him is Ms. Tina Martin from Madison, Wisconsin, and on her left, we have Dr. James Lee from Orlando, Florida. Welcome to all of you. Our topic for discussion today is the problem many homeowners have with their neighbors. Most of us don't even know our neighbors, but some families have a difficult relationship with the people living next door. Loud parties, parking their cars in front of your house, their dog making a mess in your yard. Why can't we all just get along? What are some things we can do to help deal with bad neighbors? Let's take a look.

Questions 4 through 6 refer to the following review.

(M) *The Talk of the Town* is a romantic comedy set in a small town in the south of France. This movie takes a typical love story and gives it a little bit of a surprising twist that I think most viewers will really enjoy. In *The Talk of the Town*, rich businessman Timothy Green finds himself on vacation in the strange town of Moliere. Nothing here is quite what it seems. He constantly upsets the locals with his foolish mistakes and his inability to speak the French language. However, after meeting the mysterious and accident-prone Stephanie, played by Nina Ricci, his trip begins to improve. Go to see this movie if you want a light-hearted diversion. It will certainly make you laugh, and I bet you won't believe the surprise ending! This movie is suitable for the whole family.

(M) That's OK. Maybe some other time. Let me know when you have time. I know a lot of good restaurants around here.

PART IV. Short Talks

Questions 1 through 3 refer to the following talk.

(W) Most people think of the average working day as nine to five. In other words, most people are used to working during the day, usually from 9:00 a.m. to 5:00 p.m. But some jobs start at different times. People who work "swing shift" jobs usually start work late in the afternoon, around 5:00 p.m., and finish late at night, around 1:00 a.m. Other people work "graveyard" shift jobs. These shifts last all night, from 11:00 p.m. to 7:00 a.m. These strange hours are necessary because some jobs can only be done at night. There are also an increasing number of people who work flexi-time. Flexi-time is convenient for workers because they can choose when to go to work. For example, even if my regular hours are from 9:00 to 5:00, I could go to work from 8:00 to 4:00 instead, if I wanted.

Questions 4 through 6 refer to the following talk.

(M) I changed jobs about 2 months ago. My new job is much better than my old job. First, the pay is much higher. Also, I work fewer hours. In my old job, I worked ten hours a day, but in my new job I only work six hours a day. I used to be exhausted all the time, but now I have lots of energy. My benefits are also better. I have medical and dental insurance, which I did not have at my old job. Finally, my new job is closer to my home. I can walk to work which saves me a lot of money each month on gasoline and parking fees. I can arrive home much earlier than before so I also have enough time to take French classes twice a week, and I'm going to join a gym next week.

John, tell us about the island of Marina and some of the fantastic types of cheeses that you have tried.

Questions 4 through 6 refer to the following advice.

(M) Do you want to avoid another bad sunburn this summer vacation? Sunburns are not only painful, but they are the leading cause of missed work during the summer months. Sunburns are easy to avoid. First, always wear a hat, and put on sunscreen every time you go outside. Remember, if the sun can't find you, it can't burn you. Another very good bit of advice is stay inside between 11 a.m. and 2 p.m. This time is the hottest part of the day. Third, reapply your sunscreen frequently. It's no good thinking once a day is enough. Expert sunologists recommend at least three times per day for maximum effectiveness. And finally, be sure to use sunscreen with a high protection factor, especially if you have fair skin. If you have blonde or red hair be extra careful, too! If you follow these simple rules, you won't come back from your vacation with a bright red face this year.

Now, he has his own studio, and he makes paintings that are bought by hotels and restaurants to decorate their walls. Mostly he does landscapes, but he can paint anything. You name it, he can paint it. Next time you go to a restaurant, look at the painting on the wall... it may have been done by my son!

Questions 4 through 6 refer to the following talk.

- (W) Wherever I travel, I always carry a sketchbook with me. Some people like to take photographs, but I think that photos are too impersonal. I prefer sketching because I can make a picture that nobody else has. I have done sketches of many things that I have seen: the Eiffel Tower in Paris, the Coliseum in Rome, and Buckingham Palace in London just to name a few. Sketching is also a good way to meet people. People see me sketching and sometimes start talking to me. I've met a lot of very nice people that way, and now I have friends all over the world. I have a big notebook at home where I keep all of my sketches. I have over one hundred of them.

He wrote the song himself and composed the music with his brother. Now, I'm sure you have already guessed, but for the third week in a row, the number one song is Pablo with "I'm the One." We have a big surprise for you tonight. Pablo is here to perform live in the TV studio. Let's listen to this week's number one song. Give a big hand for Pablo.

Questions 4 through 6 refer to the following talk.

(M) I don't come from a musical family. I never had the chance to learn a musical instrument when I was younger. However, my eldest son Michael has just started learning how to play the drums. He is a big fan of rock music, and he really likes trying to copy the drummer in his favorite band. I want to encourage him to be creative. My wife and I think it is important for our children to learn a wide variety of things. But I think it was a big mistake. He practices for about three hours every night. It's a problem for my family because he starts his practice at nine o'clock. I go to bed at ten o'clock, so his drumming disturbs my sleep. But he has homework to do until nine. I just don't know what to do.

PART IV. Short Talks

Questions 1 through 3 refer to the following talk.

(W) My brother John just became a soccer referee. He will referee for the first time next month. He has been playing soccer for about three years, and he has always wanted to be a referee. A referee is a person who watches the soccer game and decides if the players are doing anything that they shouldn't be doing, like using their hands, or committing a foul, like kicking another player. It happens more often than you might expect. If the referee finds a player doing anything like this, he can give the player a penalty. If a player gets three penalties, he must leave the game. It's a very serious punishment, and the players can get very upset. Players sometimes get very angry with the referee, so it can be quite stressful. Soccer referees have to know the rules of soccer very well. My brother loves soccer and I know that he will be a great referee.

Questions 4 through 6 refer to the following talk.

(W) Some children start playing baseball when they are very young. Little children, maybe 5 to 9 years old, start by playing T-ball. T-ball is gentler than baseball, so it is a good start. In T-ball, the ball is not thrown to the hitter. It is placed on a stand and the child has three chances to hit it. As children get older, say between 10 to 15 years old, they play in Little League. Little League is a baseball organization for kids that helps them learn about the rules of baseball. A lot of children go to Little League practices after school and play games on the weekend. After that, they may play on their school baseball teams when they are in middle and high school. Baseball is a very popular sport and is played by both boys and girls, although it is more popular with boys. A lot of parents get involved with their children's teams and go along to watch the games. Some parents even volunteer to coach the team during practice sessions.

- (W) How about a nice French restaurant? That would make a nice change for you. I know a good place if you are interested.
- (M) No. Thanks, but I can't afford that kind of place. I guess we'll just have to go to one of our regular places.

Questions 4 through 6 refer to the following conversation.

- (W) I'm so hungry. I didn't have time for breakfast this morning. I'm having a hard time waking up early enough these days.
- (M) You didn't eat lunch either, did you? It's not good to skip meals. Nutritionists say that breakfast is the most important meal of the day.
- (W) Yeah, I know all that stuff, but I was so busy today. I have a deadline for an order and I'm trying to finish writing a report, too.

PART IV. Short Talks

Questions 1 through 3 refer to the following instructions.

(W) This is a very simple recipe to make. I know that all of you watching at home will be surprised just how easy it is. You might like to make it together with your children. They can help you, and it's always fun to cook things together. In fact, my mother taught me how to make this dish when I was only 7 years old. Even as a child, I was able to make it with no difficulties. If you do try this with your children, I recommend that you cut up the ingredients first. You don't want to risk any accidents with sharp knives. OK, back to the recipe. It only take 20 minutes, and best of all, it is good for you, too.

Questions 4 through 6 refer to the following advice.

(M) Eating well is so important these days. There are so many choices, and so many different ideas on what is healthy and what is not, so it can get a little confusing. Well, if you want to live a long and healthy life, you need to watch what you eat. Too many sugary snacks and sugary drinks will rot your teeth, and could make you gain weight. So it is better to eat fruit or vegetable sticks between meals, and to drink water or sugar-free juices. Also, you should try to avoid fatty foods such as potato chips and pastries. Eat as many vegetables as you like, and eat a lot of fruit, too. Wholegrain breads and pastas are also good. If you combine this healthy eating with regular exercise, you will live a long and healthy life.

(W) That's Einstein. I'm sure you've seen lots of pictures of him before. He was a famous physicist. He studied physics.
(M) A physicist? He must have been smart to study physics. Physics is my worst subject in school.
(W) Yeah. I like physics, and I still find it difficult.

Questions 4 through 6 refer to the following conversation.

- (M) My chemistry professor makes us wear eye protection. I hate it. I always feel so foolish with those big plastic glasses.
(W) Yes. But eye protection is very important so chemicals don't get in your eyes. A lot of those chemicals can cause serious damage to your eyes.
(M) Right. We usually wear goggles when we are using chemicals for experiments. I guess it is better to look silly than to hurt our eyes.

PART IV. Short Talks

Questions 1 through 3 refer to the following talk.

(M) Next year, I will be taking biology. However, to be honest, I really don't want to take biology. I used to enjoy biology, but next year I don't want to take it because we will have to dissect a worm, a frog, and a mouse. Frankly, the thought of cutting open a little frog or a mouse is pretty disgusting to me. I have never even touched a mouse before. I don't know if I can do it. I think that students should have the right to refuse to do animal experiments. I think we should be able to watch a video or look at pictures in a book instead. It is not necessary to kill animals for our studies. Maybe I can change my class from biology to geology. In geology, we study rocks. I don't mind cutting open a rock.

Questions 4 through 6 refer to the following talk.

(W) I have been teaching astronomy at a private university for almost 15 years. I have always wanted to be an astronomer. Astronomers look at the stars and planets through giant telescopes. Even when I was a child, I used to go outside at night to look at the stars. I learned the names of the most important stars before I learned how to write. The university where I work as an astronomy teacher has a giant telescope. It is inside an observatory at the top of a small mountain near my university. Usually, I go there on the weekends and watch the stars. Observatories with telescopes need to be in very quiet dark places like mountains because the lights from the cities can make the stars very hard to see. I get such a peaceful feeling when I look at the night sky.

Questions 1 through 3 refer to the following talk.

(W) My local recreation center offers some very interesting classes and activities. It's a little far from my home, but this year I've been taking a lot of classes. The last class I took was pottery. It sounds difficult, but it is a lot of fun. I wasn't very good at it, but I really enjoyed it. I managed to make a plate which I gave to my mother for her birthday. She now uses it at home almost every day. Next, I want to sign up for knitting. My father wears a lot of sweaters, so I want to knit a sweater for him. I think he'd like that. I won't tell him before I do it because I want it to be a surprise for him. His birthday is in December, so if I start classes in April I think I can finish in time.

Questions 4 through 6 refer to the following talk.

(M) Let me show you some of my pictures. I first took up photography as a hobby about ten years ago. I had to save up my allowance for two years because my parents refused to buy me a camera. They thought I was too young, you see. Anyway, I didn't get into it seriously until about three years ago. Now, I never go anywhere without my camera. I don't use a digital camera. I have thought about it, but I like the camera I already own because I like to use film. I take both black and white and color pictures, but I like the black and white ones better. I think they look more impressive. Even an ordinary object looks impressive in black and white. Photography is not a cheap hobby, but I enjoy being able to share my pictures with everyone.
